Anurag Patel

Assistant Manager-2, Strategy & Analytics at Citi
Mumbai

Summary

I did Post Graduate Diploma in Business Analytics (PGDBA '15-17), jointly organized by IIM Calcutta, IIT-Kharagpur and ISI-Kolkata. I worked as Manager at the Data Analytics Centre of YES Bank. Worked in the areas of Marketing Analytics and Consumer Credit Analytics. I was responsible for building scorecard models, marketing campaigns and dashboards for different financial products of the bank. I also consulted different business units to provide analytical solutions to their products.

Currently I am working at the Risk Analytics unit of Citi- US Consumer Banking. I am part of the Portfolio and Strategic Analytics team. I am responsible for handling existing customers of the 11 Billion dollar portfolio of Best Buy. I am responsible for creating and implementing analytical models to achieve business growth and loss migration. I am developing, implementing and validating credit risk and marketing risk policies using machine learning models and analytical techniques for the portfolio.
